2021 SCORE Funding		CONSENT
Action Requested	Consider approving the budgetary program of using the 2021 SCORE and LRDG grants from the State of Minnesota and additional program dollars to support the 2021 Municipal Residential Recycling Program.	
Background	<p>In 1989, the Minnesota Legislature adopted waste reduction and recycling legislation based on the recommendations of the Governor’s Select Committee on Recycling and the Environment (SCORE). SCORE is part of the Minnesota’s Waste Management Act and provides counties with a funding source to develop recycling programs. Minnesota Statute requires counties to “ensure that residents, including residents of single and multi-family dwellings, have an opportunity to recycle.” Anoka County has chosen to fulfill this requirement by allowing the municipalities to develop and manage their individual residential recycling programs to best suit the needs of their residents.</p> <p>In order to assist the municipalities in providing this service, the County has allocated all the SCORE grant funds it receives to the 21 municipalities for their residential programs. This policy has been in effect since the first SCORE funding was received in 1990. SCORE grant funding is awarded on a fiscal year basis by the State. The actual SCORE grant will be announced in the fall of 2020 and the estimated grant amount is 1,000,000.00 dollars.</p> <p>Since 2011, the County has been allocating state Local Recycling Development Grant (LRDG) funds and other budgeted recycling funds to focus on various recycling and organics program elements. These programs include, curbside, multi-unit, drop-off, park and community events to expand recycling opportunities to increase the number of recyclables and organics collected. The County’s 2021 LRDG funding award will not be announced until October 2020; the estimated award based on historical receipts is approximately \$275,000. The remaining \$284,067 will be matched by the yearly budgeted county dollars. The 2021 budget for municipal recycling grants is \$1,559,067.</p> <p>All municipalities receive base level funding, and additional grant dollars are provided competitively for programs that provide enhanced services to the community. There is an application process and contracts are completed for the awards. All funding is reimbursement funding and expenditures are submitted to the County semi-annually.</p>	
Prior Action	Prior to 2018, these grants were approved in the RR&S committee annually. HS approved the 2020 receipt and process on August 20, 2019. The County Board subsequently approved the 21 municipal grant contracts. In 2019, the MPCA instituted a new grant contract approval process for SCORE and LRDG grant receipts. Those receipt approvals will now come before HS in October.	
Recommendation	Approve the budgetary program of using the 2021 SCORE and LRDG grants from the State of Minnesota and additional program dollars to support the 2021 Municipal Residential Recycling Program.
