

BUSINESS RECYCLING ASSISTANCE PROGRAM

Anoka County
MINNESOTA

Respectful, Innovative, Fiscally Responsible

Show your customers and community you're committed to a healthier environment.

Your business plays an important role in helping keep our air, water and land clean. A robust recycling program says you mean business when it comes to conserving our natural resources and demonstrating your organization's commitment to your community. And, recycling more may help your bottom line.

For most businesses in Anoka County it's the law to recycle at least three materials such as paper, glass, plastic, metal and organics including food waste and non-recyclable paper.

We can help

Whether you need help becoming compliant with new recycling requirements or want to improve your current recycling efforts, Anoka County has resources to help such as FREE on-site technical assistance through the Minnesota Chamber of Commerce's Waste Wise program and more.

- 1. FREE on-site technical assistance**
A technical expert will visit your site to help you find ways to reduce your waste, design a new or improved recycling program or get you started with organics recycling.
- 2. FREE labels for your recycling and trash containers**
Labels are an essential part of an effective recycling program. We provide a variety of types to fit your needs.
- 3. Funding to improve recycling**
We provide up to **\$10,000** for equipment and supplies to help your business recycle more.

BUSINESS RECYCLING INCENTIVE FUNDING

Anoka County provides grant funding to help reduce waste, design a new or improve an existing recycling program or start recycling organics.

Who is eligible?

Non-residential entities such as businesses, organizations and churches located in Anoka County.

Items Covered

- Recycling containers and bins
- Recycling equipment purchases
- Improvements to waste enclosures
- Educational materials and employee training
- And more
