2018 Community Corrections Advisory Board

The Anoka County Community Corrections Advisory Board involves citizens in the correctional planning for Anoka County through a citizen advisory board. The role of the advisory board is to:

1. Identify the correctional needs and issues of Anoka County; establish priorities among them; and develop task forces to research and study the needs and issues.
2. Recommend programs and facilities to meet the correctional needs and issues in Anoka County.
3. Recommend a budget to meet correctional objectives.
4. Evaluate correctional programs on an ongoing basis.
5. Present the annual comprehensive plan to the Anoka County Board for approval and implementation by the Community Corrections Department.
6. Promote the comprehensive plan to the community.

2018 East Central Regional Juvenile Center Advisory Committee

As outlined in the East Central Regional Juvenile Center Joint Powers Agreement, the board of commissioners of each member county shall appoint two persons to participate on an advisory committee and act as liaisons with the other member counties. The advisory committee serves in an advisory capacity and not a joint powers board under Minn. Stat. § 471.59. Advisory committee members primarily consist of one county commissioner and one county director from each member county.

The duties of the advisory committee are to:

1. Review and comment on Anoka County's proposed annual facility operating budget and per diem charges prior to adoption by the Anoka County Board of Commissioners.
2. Assist in and review the ongoing coordination of the use of the facility including bed usage and bed allocation.
3. Assist in and review the development of the programs offered at the facility; and
4. Assist in other matters relating to the facility as requested by Anoka County.

Adult Offender Supervision

Anoka County Corrections manages adult offenders court-ordered to probation supervision and on supervised release from prison. Adult supervision services and the Workhouse facility are located at the Rum River Human Service Center campus in Anoka.

Adult offenders are supervised according to their risk to reoffend or unique case circumstances. Moderate and high-risk offenders generally receive more intensive services from an individual probation officer while lower risk offenders are managed by a team of officers in a group reporting format at the Probation Service Center. Probation officers hold offenders accountable to supervision conditions utilizing research-based strategies to manage risk and promote change.

All felony level offenders are assessed for risk and individual programming needs using the Level of Service-Case Management Inventory (LS/CMI). This tool assists probation officers with case management planning by evaluating risk factors including criminal history, education, employment, peer relationships, chemical abuse, and attitudes.

Traditional and Enhanced Field Supervision

Higher risk offenders are assigned to an individual probation officer in the Traditional or Enhanced Unit based on community risk and individual needs. Probation officers' complete office and community contacts, develop offender supervision case plans, monitor conditions and respond to non-compliance. The Traditional Unit is comprised of 11 probation officers. The Enhanced Unit includes three intensive supervision officers, two pre-trial specialists, two DUI offender specialist and three Intensive Supervised Release (ISR) agents. ISR agents manage the highest risk offenders released from prison including violent and predatory offenders. One probation officer manages the IDAPP domestic assault pre-trial program.

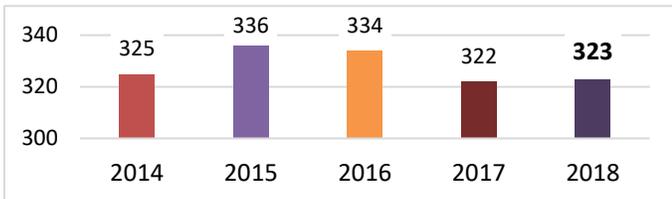

Sex Offender & Domestic Abuse

Eight specialized probation officers provide intensive supervision to the majority of sexual and repeat domestic assault offenders in Anoka County.

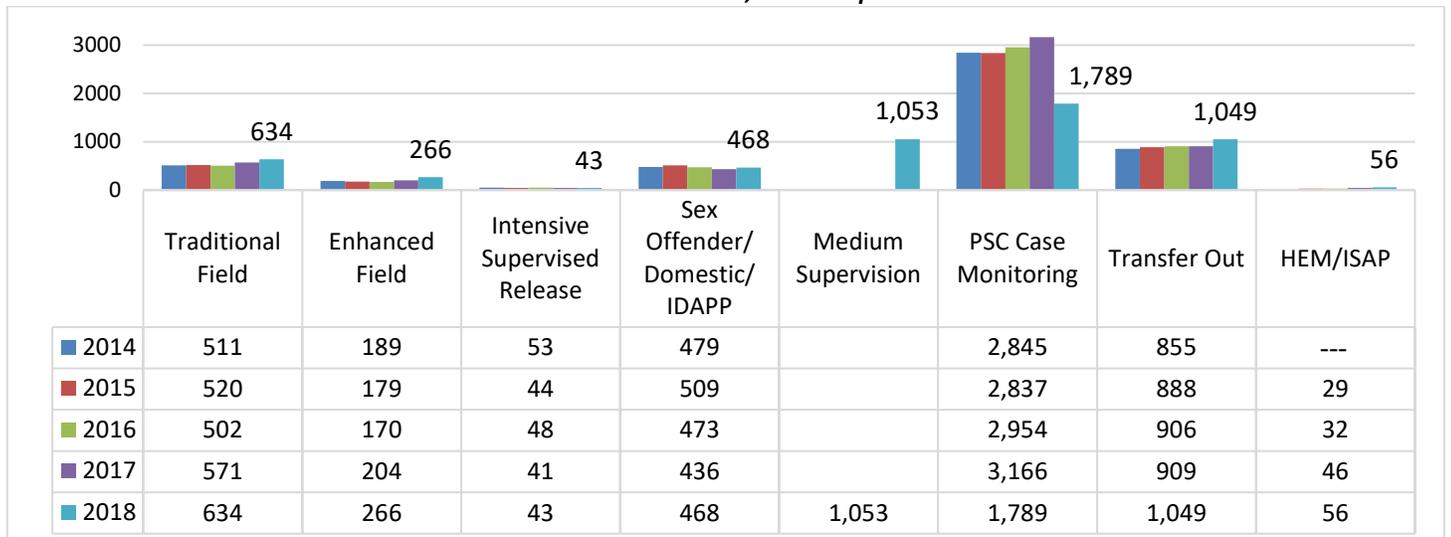

Probation Service Center (PSC)

Medium and low risk offenders typically require fewer supervision services. Three 2-agent teams manage caseloads of medium risk offenders primarily through office contacts and monitoring of court-ordered conditions. The lowest risk offenders and those who have completed all conditions are assigned to the large PSC Case Management caseload with condition monitoring and little face-to-face contact.

Probation Service Center (PSC)

The Probation Service Center (PSC) manages the largest caseload of adult offenders supervised by Anoka County Corrections. The unit is staffed by a supervisor and 10 probation officers.

The PSC caseload is comprised primarily of medium and lower risk offenders determined by risk assessment or supervision adjustment. Some cases are assigned directly to PSC from sentencing based on assessment or offense and supervision condition criteria. Other cases transition to this lower supervision level from traditional or enhanced field supervision based on risk reduction and positive adjustment.

PSC supervision emphasizes condition monitoring and compliance with approximately half of the caseload required to report in-person, the remainder is supervised on low contact status.

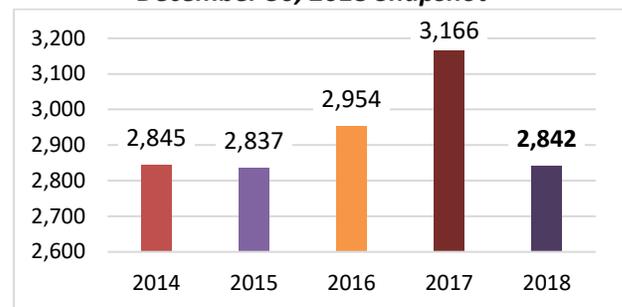

Probation officers use a team approach and technology to manage this large challenging caseload. Agents share the traditional supervision responsibilities of an individual probation officer including reviewing cases, meeting with clients, preparing reports and covering court hearings.

The CSTS case management database assists officers with organization, tracking case status changes, and documentation.

The PSC “reporting center” supervision model was developed by Anoka County Corrections in the late 1980’s and replicated across the state. The model has enabled agencies to more effectively manage large volume caseloads of appropriately identified offenders with limited resources. In 2018, Anoka County Corrections completed a redesign of this unit improving case management for certain offenders and increasing efficiencies with technology. The new model enhances supervision for medium risk and more problematic offenders.

The PSC unit is also responsible for the transfer of adult offenders sentenced in Anoka County but live in another jurisdiction. Two transfer liaison agents manage this task. Three PSC staff manage the department’s UA collection lab.

Sex Offender & Domestic Abuse

The sex offender and domestic abuse unit consists of 8 full-time probation officers. Five probation officers currently manage the supervision of 288 sex offenders. Three probation officers supervise approximately 169 domestic abuse.

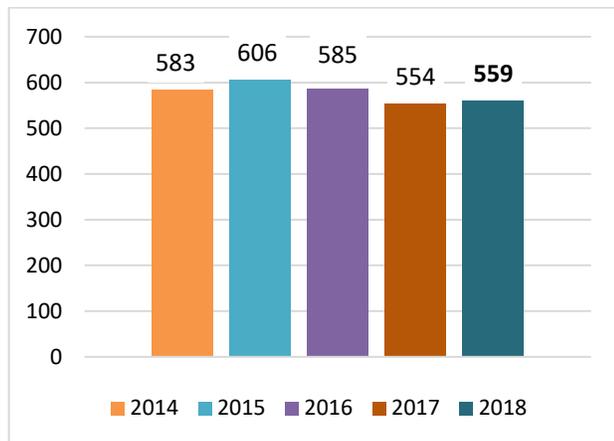

Sex Offender Supervision: Anoka County Corrections developed a specialized adult sex offender unit in October 2000. The unit is primarily funded through an enhanced sex supervision grant from the Minnesota Department of Corrections. All sex offender probation officers receive ongoing specialized training on community supervision and treatment of sexual offenders. Probation officers work collaboratively with law enforcement, social workers, treatment providers, polygraph examiners and mental health professionals in the management of these offenders.

The unit supervises both sex offenders on probation and supervised release from prison. All offenders are

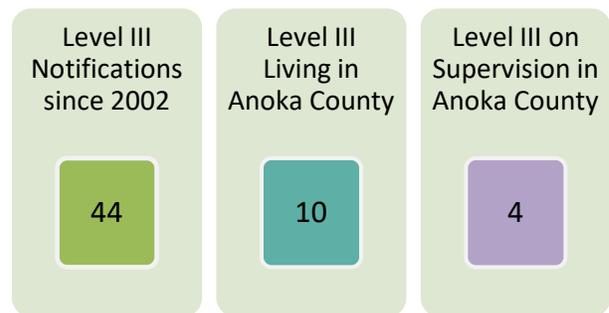

closely monitored in the community and often seen at their homes or places of employment. Most are required to register their addresses, employment and all vehicles they operate with the Bureau of Criminal Apprehension (BCA). All offenders are all subject to specialized supervision rules, polygraph testing, sex offender treatment programming, and group supervision meetings.

Domestic Abuse Supervision: Offenders convicted of repeat domestic assaults or assessed as high risk are assigned to specialized probation officers. Domestic abuse probation officers are highly trained and work closely with victims, community treatment providers, social services, and law enforcement. The majority of offenders must complete intensive treatment and are restricted from contact with victims. All are subject to random home and employment visits and drug testing.

Community Work Service / Restitution

Three case managers monitor adult and juvenile offender condition compliance in holding the offender accountable to the court. Case managers meet with adult and juvenile offenders after sentencing and interview them to determine their appropriateness for being placed at a non-profit organization to do their community service. The unit recruits and coordinates with approximately 200 non-profit work sites. Community Work Service provides a restorative justice option and fine alternative for low level and indigent offenders.

Juvenile Probation Supervision

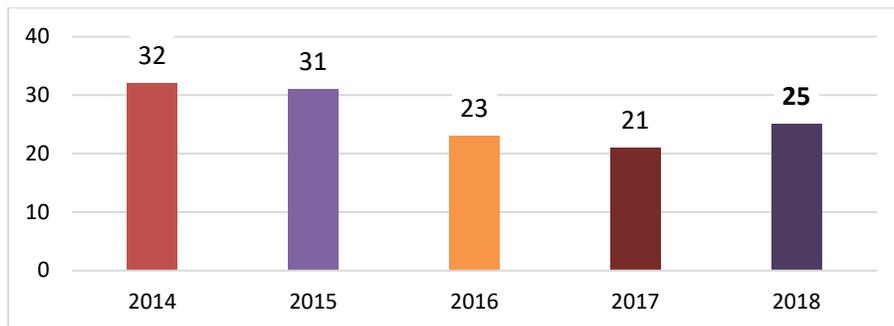

The Juvenile Field Supervision Unit supervises Anoka County residents who are adjudicated delinquent and placed on court-ordered supervision. Offenders who are deemed to be high-risk, as determined by the YLS/CMI assessment tool, are assigned to the Juvenile Intensive Unit; while medium- to low-offenders are assigned to generalist supervision or ProjPC for condition monitoring.

Within the Juvenile Intensive Unit, there are four specialized caseloads:

1. Extended Juvenile Jurisdiction (EJJ), cases supervised by one (1) probation officer who is presently supervising 14 cases of which 8 are EJJ designated.
 - The EJJ caseload had three (3) clients released successfully from probation during 2018.
 - There were three (3) clients that had their EJJ status revoked in 2018.
2. Sex specific caseload, which has two (2) staff assigned supervising approximately 15 total cases.
3. Intensive supervision caseload, which has five (5) staff assigned supervising approximately 19 cases each.
4. The medium and low supervision cases are monitored by 3.8 regular staff.

In the past few years, many significant legislative mandates changed the role and delivery model of afterhours emergency social services in Minnesota. The two primary areas include Adult Protection and Child Protection. The Adult Protection services are triaged through a point of contact number for all cases. Child Protection cases are handled through a contracted provider for Anoka County in order to meet the legislative mandates effective January 1, 2017.

2018 Highlights and Accomplishments

Children’s Mental Health Assessment Program

The Juvenile Center (JC) Mental Health Program provides mental health services to residents at Anoka County Secure (ACS), Anoka County Non-Secure (NSP), and East Central Regional Juvenile Center (RJC) programs as well as mental health related training and consulting for staff and community-based referring agents.

Mental Health Early Intervention Screening is completed on all Anoka County youth admitted to the Juvenile Center. Psychological Evaluations are completed for residents in the 28-Day Assessment Program at NSP and for youth in Anoka County who are uninsured/underinsured when referred by their probation officer or social worker. Mental Health Diagnostic Assessments provide social workers and probation officers written documentation of provisional mental health diagnoses and related recommendations. Funding for these services is provided in part by the MN Department of Human Services Child Welfare/Juvenile Justice Screening Grant.

2018 was the third year that no referrals were made for a psychological evaluation for a youth that is uninsured/underinsured. This is a continued result of an increase in insured youth in the county as well as referring agents’ ability to refer for psychological evaluations through their contracted service providers.

Training provided to JC staff in 2018 included improving staff resiliency and gaining knowledge about the impact of Adverse Childhood Experiences (ACEs) on JC residents.

Coping Skills Groups were facilitated with three long-term groups at ACS and NSP, as well as short-term program residents at NSP over the summer.

Grant funds obtained through the Student and Family Engagement (SAFE) Grant via the Anoka County Children and Family Council provided funding for parent engagement activities at the JC throughout the 2016-2017 academic school year. These grant dollars also provided tools that promote emotional regulation and aid in the learning and practicing of coping skills that are now available to all JC residents. The JC has continued partnering with Pines School (Centennial School District ISD12) to continue family engagement promotion and parent education night events in the 2018-2019 academic school year.

Pines School – 2018 Update

Anoka County Community Corrections operated the Pines School from 1997 through June 30, 2012. On February 28, 2012 the Anoka County Board of Commissioners approved the withdrawal from the longstanding joint powers agreement with Centennial School District #12 to operate the Juvenile Center school. This essentially meant Centennial School District began governance of all educational programs at the Anoka County Juvenile Center on July 1, 2012.

On July 1, 2014, Centennial School District #12 expanded the educational services offered at the Pines School to include educational assessment services called Apollo. This expansion included additional classrooms, educational staff offices and storage space. Pines School bussed students to the day program and Apollo increased from 24 to 48 students.

Pines School leadership team has changed three times since 2012 which were largely related to the retirement of long-term director of Alternative Programs and Special Education director. The current director is in his third year of overseeing Pines School and CALC educational programs.

Anoka County Recidivism Rates

The Estimate of Risk of Adolescent Sexual Offense Recidivism (ERASOR) assessment is one of most widely-used risk assessment tools for adolescents ages 12 to 18 who have offended sexually. The ERASOR tool includes a comprehensive list of 25 risk factors that structures a professional predictable judgment of risk. The ERASOR can also be a valuable guide for intervention and supervision efforts. The ERASOR is designed to assist evaluators to estimate the risk of a sexual re-offense for individuals aged 12-18 who have previously committed a sexual assault. The ERASOR risk factors are not exhaustive as there are unique risk factors specific to an individual being assessed.

2017	81	12-24 months / 19%	66 out of 81 No New Adjudications/Convictions
2018	79	In Process	

- Each year reflects the year that the youth studied completed supervision. The youth were selected on a random basis.
- The study will end up being a rolling 5-year recidivism review.
- Most of the recidivism was minor in nature and not person offense types.
- Using 2012 as a baseline we see recidivism reducing correlating with strategic changes to case management.

ECRJC court-ordered short-term group program residents complete a personal assessment inventory of the seven universally accepted criminogenic risk factors and rank their motivation and confidence to change based on the “cycle of behavior change” recognized in the motivational interviewing change wheel.

ECRJC developed the Pre-Program Assessment inventory (completed within the first week) and Post-Program Assessment inventory (completed the last week). Residents initially meet with their primary counselor to review criminogenic needs to develop a case plan. Then residents follow up with the Program Coordinator to ensure the accurate criminogenic needs are being targeted based on file review and collateral resources. All submitted criminogenic factors, motivation to change, and confidence to change data is recorded resulting in these outcomes.
