## Health Benefits

- Helps to keep the nervous system, digestive system, skin, hair and eyes healthy with niacin.
- Supplies potassium for healthy body.
- Vitamin E which helps prevent cells from being damaged.

## FUN FACT

- The nectarine is actually a subspecies of peach that lacks the gene for fuzz.
- You can sometimes find nectarines and peaches growing alongside each other on the same tree.
- There are freestone varieties where the fruit easily comes off the pit as well as clingstone varieties where the fruit is more difficult to get off the pit.
- Nectarines are a member of the rose family.
