**2019 Accomplishments:**

- Completed a staffing plan to synchronize the JC staff from three grade levels to two grade levels. This was accomplished through attrition and restructuring the Juvenile Detention Officers to Probation Officer Aides. This provides significant resource distribution based on population needs and staff function. Further, this model allows for campus-wide staff sharing as needs dictate.
- Several new Probation Officer Aides hired in the facility.
- Completed an onsite DOC license inspection with new inspector. (Note: The new inspector has since resigned to return to residential services and a replacement DOC inspector has recently been hired.)
- Additional Probation Officers were trained in facilitating Decision Points COG programming as well as onsite live Crisis Intervention training. Decision Points is facilitated in all three groups on a rotating basis.
- Ongoing work and focus in reducing use / application / and frequency of resident disciplinary room time annually.
- Restructured all components of the Weekend Program.

**2019 Per Diem:** \$251-(member county) / \$282-(non-member county)

*ECRJC court-ordered short-term group residents complete a personal assessment inventory of the seven universally accepted criminogenic risk factors and rank their motivation and confidence to change based on the “cycle of behavior change” recognized in the motivational interviewing change wheel.*

*ECRJC developed the Pre-Program Assessment inventory (completed within the first week) and Post-Program Assessment inventory (completed the last week). Residents initially meet with their primary counselor to review criminogenic needs to develop a case plan. Then residents follow up with the Program Coordinator to ensure the accurate criminogenic needs are being targeted based on file review and collateral resources.*

*Criminogenic Risk scores indicate residents risk factors are reduced from the start of their program to their discharge from the program which is reflective of targeting risk factors. Change scores are separated into two subgroups including motivation to change and confidence in ability to change. These scores indicate residents from time of entering RJC to the time of discharge increase their motivation to change their behaviors and confidence that they can change.*

**RESIDENT/FAMILY SURVEYS: 87 Parent, 106 Resident, and 3 Agent Surveys completed.**

**87 Parent Surveys:** 87 parent surveys were completed with 40% of the results received from parents' of 30/15 program youth. During their child's stay, 75% of the parents surveyed believe their child's educational needs were met. 80% of the parents felt their child's behavior improved while in the program, and 96% of the parents felt their child was placed in a safe environment.

**106 Resident Surveys:** 89% of the youth surveyed were 15 years and older with 85% being male. 99% of the youth felt they received proper orientation into the program, along with 96% stating their basic needs of food, clothing, hygiene, and recreation were met. 95% of the youth felt their primary counselor met with them to address goals and 94% felt that living at RJC had a positive effect on their ability to succeed.

**3 Agent Surveys:** All agents surveyed strongly agree that their client's basic needs were being met. 100% of the agents surveyed agree that their clients are in a safe environment where staff are both helpful and informative.
