

DOMESTIC VIOLENCE

AWARENESS MONTH

During October

We honor Domestic Violence Awareness Month by mourning those we have lost, celebrating the progress made by victim advocates, and unifying our community to prevent all forms of relationship violence.

In 2019 there were

658

domestic violence related
law enforcement referrals

14%

of our 8th, 9th, and 11th grade students
indicated that they had
experienced some form of
relationship violence

Help spread AWARENESS

We invite residents, businesses, and organizations to participate in a **community display campaign** in recognition of DVAM and as a visual pledge to end relationship violence.
