

# Anoka County GIS Property Search Application

## Issue: Website shows as “Under Construction” when it is not

If you see the screen below when attempting to access the Anoka County GIS Property Search application (<http://gis.anokacountymn.gov>), please clear your browser cache.

In [Internet Explorer \(IE\)](#) – click the “Tools” button (  ) and click “Internet Options.” Next you will need to click “Delete” under the “Browsing History” section and make sure “Preserve Favorites website data” and “Temporary Internet Files” are checked on and click “Delete” at the bottom. Your cache should be clear. Reload the application.

In [Google Chrome](#) – click the “Customize and control Google Chrome button (  ) and choose “History” from the list. Choose “Clear browsing data” and make sure “Cached images and files” is checked on and click “Clear browsing history.” The cache should be cleared.

In [Firefox](#) – click the “Settings” button (  ) at the bottom of the page. Click the “Advanced” tab and then the “Network” tab and click “Clear Now” under “Cached Web Content.” Hit “OK” and the cache should be cleared.

If the problem persists, contact Anoka County GIS (763-323-5503) to find out if the site being worked on when the work will be complete.
